LED MR16 GU10 BASE LAMP

Available with a GU10 base, MaxLite's LED MR16s are highly efficient LED replacement lamps for 35-watt incandescent lamps, using just six watts of energy, and saving up to 75 percent in energy costs. With models available in 3000K (warm white) correlated color temperature (CCT), and 5000K (daylight) CCT, MaxLite's dimmable LED MR16s maintain a high quality of light, and are suitable for architectural, accent and recessed lighting in residential, retail, museum, and hospitality applications.

PROJECT NAME

NOTES
FIXTURE TYPE

FEATURES:

- Lumens: 3000K: 300 lumens/5000K: 330 lumens
- 6 watts
- 3000K or 5000K
- 25,000 hour life (L70)
- Solid aluminum housing for thermo heat protection
- 120V
- Color matched LEDs
- Five year warranty
- Dimmable
- CRI: 80

CONSTRUCTION:

LEDs: All LEDs are matched for color and CRI. The stated 25,000 hour life is based on functional light quality. After 30 percent lumen depreciation, MaxLite considers the functionality of the lamp to be ended (end of life), even though the lamp is still at 70 percent of initial lumens.

Housing: The body of each lamp is solid aluminum, which acts as a heat-sink to provide heat conductivity. This keeps the LED junction temperature well below the manufacturer's specification. The lamps stay cool and the lumens are maintained for longer life.
