

LED PAR16

The PAR16 is a highly efficient LED lamp that uses only six watts of energy to replace up to a 40-watt halogen PAR16, significantly reducing your carbon footprint while maintaining a very high quality of light. The SKR1606 features industry leading light output, making it ideal for accent, architectural and wall wash lighting in track, recessed and decorative lighting fixtures in retail, high-end residential and office environments. The LED Lamps produce a strong center beam candle power that provides bright and crisp lighting to showcase artwork and products.
